

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

PORTUGUESE PHRASE BOOK

This Phrase Book supersedes TM 30-247, February 15, 1943.

PORTUGUESE is spoken by 8 million people in Portugal and its possessions and by about 45 million people in Brazil. In Brazil the language is often called Brazilian but it is no more different from the language of Portugal than American English is from British English. In this Phrase Book words have been chosen that will be understood both in Portugal and in Brazil.

This Phrase Book contains the Portuguese expressions you are most likely to need. *All the words are written in a spelling which you read like English.* Each letter or combination of letters is used for the sound it normally represents in English and it always stands for the same sound. Thus, "oo" is always to be read as in *too, boot, tooth, roost*, never as in *blood* or *door*.

Syllables that are accented — that is, pronounced louder than others — are written in capitals. Curved lines () are used to show sounds that are pronounced together without any break, for example, "PA_ee" meaning "father."

Special Points

Here are a few points to note:

- EH** as in *let, bed, ten*. Examples: "EH" meaning "is," "KEH-roo" meaning "I want."
- J** stands for the sound in *measure, usual, division, occasion*, etc. We have no single letter for this sound in English, so we write it in this Phrase Book as "j." Remember that "j" always stands for the sound in *measure*, never for the sound in *judge*. Example: "LAWN-jee" meaning "far."
- NG** is written after certain vowels to show that they are pronounced through the nose. Examples: "BAWNG" meaning "good," "NOUNG" meaning "no."
- RR** stands either for a strongly rolled "r" sound (like the telephone operator's "thuh-r-r-ree" for "three") or for the sound you make when you gargle. Example: "see-GA-rrooss" meaning "cigarettes."

There are some variations of pronunciation in different regions, but they will not interfere with your making yourself understood with this Phrase Book. For example, an "s" at the end of a word is pronounced like *sb* in some sections.

How to Use the Phrase Book

The Table of Contents lists the situations covered. Try to become familiar with the contents of the Phrase Book so that you will know where to find a given section when you need it. Under each section you will find a number of questions, each one so phrased that the Brazilian or Portuguese speaker will answer Yes or No, point out the direction, give you a number, etc. If you don't get an answer you can understand use one of the following expressions:

<u>English</u>	<u>Pronunciation</u>	<u>Portuguese Spelling</u>
Answer Yes or No	rray-SPOAN-da SEENG o NOUNG	Responda Sim ou Não
Show me	MAW-stree-mee	Mostre-me
Write it	ay-SKRAY-va	Escreva
Write the number	ay-SKRAY-va oo NOO-may-roo	Escreva o número

You can also point to the question in Portuguese and ask the Brazilian or Portuguese speaker to point to the answer:

Point to the answer in this book	een-DEE-kee ah rray-SPO-sta NAY-stee LEEV-roo	Indique a resposta neste livro
-------------------------------------	--	-----------------------------------

The word for "please" is "pawr fa-VOR."

Please show me	MAW-stree-mee pawr fa-VOR	Mostre-me por favor
----------------	------------------------------	---------------------

It is a good idea to memorize the words for "Yes" and "No," the numbers (at least up to ten), and other expressions you will constantly need.

When you need only a single word or expression, use the Alphabetical Word List at the back of the book.

To help with the pronunciation of Portuguese, a set of records is issued with the *Portuguese Language Guide (Introductory Series)*, TM 30-301.

Fill-in Sentences

Many of the expressions are given in the form of fill-in sentences, each containing a blank which you fill in with any of the words in the list that follows. For example, if you want to know where the station is, you can look either in the section

headed Location or in the one headed Roads and Transportation.

You will find a fill-in sentence for "Where is ___?" and in the list following the sentence, the words for "railroad station."

You then combine the words as follows:

Where is ___?
the railroad
station

AWN-dee EH ___? Onde é ___?
ah ee-sta-SOUN a estação de estrada de
dee ee-STRA-da ferro
dee FEH-rroo

Where is the rail-
road station?

AWN-dee EH ah Onde é a estação de
ee-sta-SOUN estrada de ferro?
dee ee-STRA-da
dee FEH-rroo?

Sometimes the blank has to be filled in with the name of a city or a person. For example:

How far is ___?

ah kee dee-
STAHNSS-ya
FEE-ka ___?

A que distância
fica ___?

___ wants to see you

___ day-ZAY-ja
VAY-loo

___ deseja vê-lo
